

## ➔ **MediaCentral 2 Adds IP TV Support**

by [Staff](#), 9:25 AM EDT, July 7th, 2006

equinix announced the immediate availability of [MediaCentral 2](#) on Friday. MediaCentral 2 is a media center application that lets you access all of the music, movies and photos on your Mac from a single interface. The new version supports IP TV, IP Radio, television, music, movies, photos, DVDs, and games. It also includes My MediaCentral, which lets you customize the content you view, and supports several remotes including the Apple Remote.

MediaCentral 2 is available at the equinix [Web site](#), and is priced starting at US\$29.95.
